Price Movements Are Toward Higher Level.

PROFESSIONAL DEALINGS

Few Through Popular Commission Houses-News From Russia Trade Incentive.

NEW YORK, Oct. 31 .- London houses sold a few stocks on sharp advances, probably less than 15,000 shares in all. The stock market was fairly active, with broad interests and number of issues dealt in, but with no great increase in outside interest. The big dealings are professional rather than through the popular commission houses.

Price movements during the first hour were almost all toward a higher level, with Smelting, Tennessee Co. and Iron, Reading, General Electric, and Sloss Sheffield leading the advance with gains ranging from 2 to 3 points. American

tent by current reports that the quar-terly systement to be issued this afterwill show net earnings of \$32,000,000 or at the rate of about 10 per cent per

The incentive to the trading throughout the list was the favorable Russian news. The Czar's manifesto was regarded as removing all fears of financial trouble in Paris and averting probabilities of gold exports from New York, Some loans were called, supposedly in anticipation of November disbursements. Government bonds were unchanged; other bonds firm.

RECORDED TODAY

MUCH COTTON OFFERED FOR SALE ON MARKET

NEW YORK, Oct. 31.-Considerable otton was for sale at the opening of the local market this morning-more than expected in view of the improved situation in Russia and the bullish character of the cables which came 12 points up, whereas an advance of 9 to 10 points would have matched the New York closing prices of yesterday. After opening 4 to 6 points higher prices eased to within a point or two of yesterday's final figures when the selling was arrested by the weather map, which was none too good. Public trading was not a factor on either side and the sentiment of the room was inclined to be bearish.

#### THE OBJECT OF THE ASSOCIATION

The object is to enable and encourage its members-first, to make regular monthly savings of fixed amounts on shares, and realize a fair and substantial interest; second, to purchase, pay for, and acquire homes and other property by obtaining from the Association advances at reasonable rates of interest, to be repaid in small monthly installments, with the privilege of settling all or any portion at any time.

The success of the Equitable is largely owing to the fact, which its transactions have demonstrated to be true, that between the two classes of shareholders that constitute the Association, viz: The investors and the borrowers, the benefits and advantages are equal and mutual. The Association is as great an aid and benefit to one class as to the other. Both must be equally interested to work satisfactorily. The Equitable is based and worked upon this plan, which is true in policy as well as in principle.
